LANGUAGES

French - native

English - B2

Spanish - basic

Japanese - beginner

SKILLS

Programming languages:

- Python
- SQL
- C
- LaTeX

SolidWorks software

SOFT SKILLS

Teamwork

Creativity

Adaptability

Perseverance

EDUCATION

2026 to present - Engineering student at ENSEEIHT
Track: Electronics, Electrical Energy and Automation

2024 to 2026: Preparatory classes (CPGE) MPSI / MP
High school Camille Jullian, Bordeaux, France

2024 - French general Baccalauréat, highest honors
High school Camille Jullian, Bordeaux, France

2023 - PSC1: First aid certification

PERSONAL PROJECTS AND EXPERIENCE

- **Cryptographic primitives coded in Python**

I implemented a PRNG, a hash function and a stream cipher based on the Rule 30 cellular automaton, then ran several tests on the effectiveness of each of these functions.

- **SNU:** Service National Universel (French national youth service)

INTERESTS

- Robotics and new technologies
- Electronics, mechanics and embedded systems
- Computer security and cryptography
- Generative AI development
- Energy production
- Calisthenics and volleyball (team captain)
